whom, the Chinese who had taken shelter in adjoining buildings were put to flight, after discharging their Matchlocks, and possession taken of the Works.

The General having cleared the intermediate space of such of the Chinese as remained, pushed forward, and occupied the Heights immediately above the Town for the night; every point being thus completely in our power.

In detailing this service to your Lordship, I have the highest satisfaction in reporting the gallantry, zeal, and energy which has been manifested by every Officer and Man of Her Majesty's Navy and Royal Marines, as well as those of the Indian Navy under my command; They have vied with each other in the desire to anticipate and meet every object for the public service, and are fully entitled to my best acknowledgments; and the favorable consideration of the Board of Admiralty and Indian Government. I have no less pleasure in witnessing the anxiety which pervades all ranks, to go hand in hand with our gallant Companions of the Army.

His Excellency Sir Henry Pottinger and Suite were with me on board the Wellesley, during the operations of the 26th.

Enclosure, Captain Bouchier's own report will No. 2. best describe the proceedings of the little Squadron placed under his orders for the attack of Golong-soo, which was admirably executed, and I can only add my meed of praise on this additional instance of the gallantry of Captain Ellis, and the Officers and Men of the Royal Marines under his command, as well as of Major Johnston, and the detachment of the 26th acting with them.

Enclosures, The accounts we have received of Nos. 3 and 4. the force of the Chinese for the defence of Amoy, vary from 5,600 to 10,000 Troops; and it is with sincere pleasure I am enabled to transmit your Lordship so small a list of Casualties amongst the Crews, and Masts and Rigging of the Squadron. The resistance made by our opponents would have justified the apprehension of greater injury. Under the protection of their well constructed casemated Works, they stood on some points firmly to their Guns. We have no knowledge of their actual loss, more than 60 dead bodies were I believe found in the Batteries; but nearly all the wounded, and many of the slain, were carried off by their countrymen.

His Excellency the Commander of the Forces will probably give your Lordship an account of the Munitions of War and Government Stores which have fallen into our hands, including a large quantity of Gunpowder, and a Foundry for Cannon, where some Guns of very large calibre, newly cast, have been discovered.

Enclosures, We have been constantly employed Nos. 5 and 6. in destroying the Guns; and as far as it has been practicable, the Batteries taken on the 26th. The last two days Commander Fletcher with a party of Seamen and Marines, has been also detached in the Nemesis, and with very commendable zeal, has completely disabled the Guns on every Battery on the North East and South West sides of the Bay; and the fortified Islands at the entrance, of which your Lordship will find Official Returns enclosed.

The superiority of the Bay and Inner Harbour of Amoy has much exceeded our expectations. The anchorage in the former appears excellent; and the latter, as far as our hasty surveys have gone, affords perfect security for ships of any class, and to a great extent, with a reasonable prospect of proving a healthy situation; Sir Hugh Gough and myself have therefore entirely concurred with His Excellency Sir Henry Pottinger, in the expediency of retaining possession of the Island of Galong-sao, which will at any time give us the command of Amoy, until your Lordship's wishes, or the pleasure of Her Majesty's Government is known. For this purpose a sufficient Garrison will be placed on the Island by the General, and I propose to leave Captain Smith of the Druid, with the Pylades and Algerine for their support.

The wind is unfortunately at present adverse, but your Lordship may be assured that the Expedition will proceed to the Northward, the moment it is practicable in the farther execution of our Instructions.

I have the honor to be,

My Lord,

Your Lordship's most obedient servant,

W. PARKER, Rear Admiral.

Enclosure No. 1.

On Board H. M.'s S. "Wellesley,"

Off Amoy, 26th August, 1841.

The undersigned, Sir Henry Pottinger, Bart., Her Britannic Majesty's Plenipotentiary, Sir William Parker, Commanding-in-Chief the Naval Forces, and Sir Hugh Gough, Commanding-in-Chief the Land Forces of the British Nation in these parts.

To His Excellency the Admiral Commanding-in-Chief the Naval Forces of the Province of Fukien.

There being certain differences subsisting between the two Nations of Great Britain and China, which have not been cleared up, the undersigned Plenipotentiary, and the Commanders-in-Chief, have received the Instructions of their Sovereign, that, unless these be completely removed, and secure arrangements made, by accession to the demands last year presented at Tientsin, they shall regard it as their duty to resort to hostile measures for the enforcement of those demands.

But the undersigned Plenipotentiary and Commanders-in-Chief, moved by compassionate feelings, are averse to causing the death of so many Officers and Soldiers, as must perish, and urgently request the Admiral, Commanding-in-Chief in this Province, forthwith to deliver the Town and all the Fortifications of Amoy into the hands of the British Forces, to be held for the present by them. Upon his so doing, all the Officers and Troops therein will be allowed to retire with their personal arms and baggage, and the people shall receive no hurt, and whenever these difficulties shall be settled, and the demands of Great Britain fully granted, the whole shall be restored to the hands of the Chinese.

If these terms be acceded to, let a white flag be displayed from the Fortifications.

(Signed) HENRY POTTINGER,

Her Majesty's Plenipotentiary.

WILLIAM PARKER,

Rear Admiral.

East Indian Station.

Her Majesty's Ship Blonde. Inner Harbour of Amoy, 27th August, 1841.

SIR,—The operations of the force you did me the honor to place under my command for the attack of the Island of Colong-sou, were so immediately under your observation, that little remains to me beyond the agreeable duty of bringing to your Excellency's notice the admirable conduct of every Officer and Man I had the honor to command.

The Squadron was led into action by Captain Eyres, commanding Her Majesty's Sloop Modeste, with the most perfect skill and gallantry: The Blonde and Druid followed, and were placed as near as the shoalness of the water would admit to the three principal Batteries, which they succeeded in silencing after a fire of one hour and twenty minutes, when the Marines under the gallant Captain Ellis were landed, and carried the heights with their accustomed bravery.

The distance of the Transports prevented the 26th Cameronian Regiment from being on shore at the same moment with the Marines, but they were promptly after them; and the detachment of that distinguished Corps, under Major Johnston, assisted in clearing the remaining Batteries, and dispersing the Enemy.

From Captain Smith of H. M. S. Druid, I received the most able support, that Ship was placed with excellent judgment, and her conduct such as was to be expected from her high state of discipline. This Island being now completely in our possession, I left the Druid to protect it; and pushed the Modeste and Blonde into the inner harbour, silencing their War Junks and Batteries on the opposite shore as we passed; and I have herewith the honor to enclose a return of the Vessels captured, and Ordnance destroyed. The Officers and Crew of this Ship merit my highest praise, as well as the Party of Royal Artillery serving on board under the Command of Lieutenant the Honorable R. E. Spencer. I should be wanting in justice were I to close this letter without bringing to your notice the merits of Lieutenant Sir Frederick Nicolson, first of this Ship, to whose valuable assistance I am much indebted, and I must also beg to name to your Excellency the Senior Mates of this Ship, Messrs. Walker, Rolland and Anderson, young Officers of much promise.

I have great pleasure in adding that this service was performed without loss of life on our part, although the Ships have suffered considerably in their masts, sails and rigging.

The Captains of the Druid and Modeste speak in the highest terms of their Officers and Ship's Companies. I enclose the Report of Captain Ellis of the Royal Marines.

Military Quarters, Royal Marines, Island of Coronson, near Amoy, 27th August, 1841.

SIR,

Having yesterday received your directions to land from Her Majesty's Ships Blonde and Druid, under your Orders, the Detachments of Royal Marines of the Ships named in the margin, and drive the Enemy from the strong Battery of Coronson you had previously engaged, I have the honor to acquaint you, for the information of Rear Admiral Sir William Parker, K. C. B., Commander in Chief, that, in furtherance of that object, I landed with them on a sandy beach to the right of the Battery, and after some difficulty in climbing rocks, and other impediments, succeeded in gaining the ridge, and the flank of the Chinese position.

The Enemy, before we had gained the level, opposed us courageously, attacking us with Matchlocks, Spears, and Stones, but we soon drove them before us, cleared the Battery, and dispersed them: the Garrison retreating to the rear, many of whom effected their escape by Boats on the beach to Amoy opposite; several men were killed in and about the Battery in following the retreating party (some of whom also were wounded) I made a detour of this large and populous Island, and discovered at its western extremity a sand bag Battery of 9 Guns, and a few Gingals, they were all loaded, but did not appear to have been recently discharged: no other armed party of the Enemy was fallen in with. I am happy to add that in these operations no casualty happened to the Detachment I have the honor to command; moreover, I have great pride in reporting to you, that all the Officers, Non-Commissioned Officers, Rank and File throughout the day conducted themselves individually as well as collectively, with a courage, zeal and perseverance far beyond my power to express.

The Policies of Insurance must be effected in the name and on behalf of the East India Company, as the Parties interested, or endorsed to their order; but persons desirous of effecting the necessary Insurance in this Country, and of depositing the Policies in the Company's Treasury, will be allowed to do so.

5th.—In case of default being made either in acceptance, or payment of the Bills, the Court of Directors to be authorized, in such manner and at such times as they may see fit to sell the Goods, for the purpose of re-paying the Company the amount of the Advances made thereon, including Freight and any other charges or expenses which the Company may have incurred on account of the Consignment, together with interest, should any have accrued; the Company, on the other hand, allowing discount, where any part of the proceeds shall be realized before the Bills fall due, and the settlement of either surplus or deficiency shall be made with the Consignor; and if in India or China by the Government or Agents from whom he received the Advance, at the rate of exchange at which the Company may at the time be drawing Bills upon such Government or Agents.

The Consignor shall be at liberty to make provision, in case of the Party upon whom the Bill is drawn, (being also the Agent) having failed to accept the Bill, for the substitution of another Agent.

7th.—After the arrival of the Goods in England and when they shall have been placed in such deposit as may have been agreed upon, the Agent may be put into possession of them before the Bills become due, upon the amount of such Bills (less discount) being paid, together with the Freight and any other charges and expenses which the Company have paid or may be subject to on account of the Goods.

10th.—Parties receiving Advances, to address in each instance a Letter in quadruplicate to the Court of Directors, according to a form which will be furnished by the Officers of Government (or authorized Agents of the East India Company), signifying their assent to all the foregoing conditions, but more particularly for the purpose of expressly authorizing the sale of the Goods by the Company (without either notice to or concurrence of any person whomsoever) at any period after default shall be made either in acceptance or payments of the Bills; also authorizing, in such cases, the re-paying to the Company the Advances made, either principal or interest, together with any other charges or expenses which the Company may have incurred in respect of the Goods, and appointing the Agent in England for each transaction.

NOTICE.

CHANGE OF PILOT STATION FOR THE RIVER HOOGHLY.

NOTICE is hereby given, that referring to the
impracticability during the last S. W. Mon-
soon, owing to the encreasing resort of Shipping to
the Port of Calcutta, to supply Pilots at the distant
Station off Point Palmyras, the arrangements as noted
in the following Memorandum from the Master At-
tendant, will be adopted for the next S. W. Monsoon.

MEMO.

1st.—A Pilot Vessel will be stationed off False
Point during the next South West Monsoon, say from
the 15th of March to the 15th of September 1842,
bearing, according to circumstances, E. by N. a S. E.
by S. from the Light House, and in from 10 to 15
fathoms depth of water.

2d.—This Vessel will exhibit by day when any
others are in sight, besides the usual Company's
Ensign at her Peak, a large Danish Jack (red with
white cross) at her Main Top Gallant Mast Head, and
at night a good Light in the same situation, besides
burning a Blue Light every hour, and beating a Gong
frequently in calm thick weather, to warn Vessels
coming from the Southward of her near neighbour-
hood. She will not however have any Pilots on
board, the main object of her intended Station off
False Point being to guard all inward bound Vessels
from proceeding to the old Station off Point Palmyras
during next season, and directing them to a new one
in the South Channel between the Tails of the
Eastern and Western Reefs, where Pilot Vessels will
then be found in from 16 to 20 fathoms water, and
from 6 to 8 Miles South West of the present South
Channel Buoy, that Buoy laying in Lat. 20° 58' 30"
N. Long. 88° 4' East of Greenwich, and in 12 fathoms
water.

3d.—For the purpose of more distinctly marking the
new Station, the Commanding Officer's Vessel there
will always wear by day, when other Vessels are in
sight, a large St. George's Jack (white with red cross)
at her Main Top Gallant Mast Head, besides the
usual Company's Colours at her Peak, and at night
be distinguished by a constant good Mast Head Light,
by Blue Lights and Maroons used alternately every
half hour and also by Guns fired every four hours,
say at 8 p. m., Midnight, and 4 a. m. with good
Rockets discharged at the same time.

4th.—All Vessels are recommended to be most care-
ful in coming over from False Point to the New Sta-
tion by constant attention to that safe old Guide the
Lead, and thereby correcting their Steerage as Tides
or Currents may or may not set them out of their
proper course, and they are also advised not to come
under 16 fathoms, at night especially, till they reach
the Pilot's Station and get their proper Pilots on
board.

5th.—Lastly—All Vessels are directed not to ap-
proach the Pilot's Station at night without giving due
warning, and not only by the exhibition of Lights, say
2 Vertical where best seen, but also by the discharge
of a Gun, if they have any on board, as soon as they
desecy the first Pilot Vessel near them. They are fur-
ther recommended to be most careful not to come into
collision with any of the Pilot Vessels at the Station
on their own accounts no less than that of the Public
as they will be held responsible for all Damages, and
called upon afterwards to pay for all that may have
arisen from bad Look-out, Inattention to Duty, or
Carelessness of any kind whatever.

18. It is hereby further notified that under the 6th Article of the Convention between Great Britain and France dated the 7th March 1815 quoted below, the Agents in India of His Majesty the King of the French, or Persons duly appointed by them, are entitled to demand that out of the quantities of Behar and Benares Opium declared as above for Sale at the five Sales in the months of January, February, April, May and June, there shall be delivered to them at the average of the particular Sale or Sales to which the Opium so applied for may belong, a quantity not exceeding in the aggregate 300 Chests, and the Agents of the French Government must make requisition for the whole of the Opium required by them during the year within 30 days after the publication of this Advertisement specifying the particular Sale or Sales from which the quantity of Opium is intended to be taken. If the Agents of the French Government shall not make the requisition for Opium within the time abovementioned, the entire quantity of about 18,360 Chests of Behar and Benares Opium as above estimated will be brought to Sale in the usual manner, and if they shall make application for a quantity of Opium to be delivered to them out of the quantity advertised for Sale at each or any of the five Sales abovementioned, but shall not pay for it within the prescribed period of payment, the Governor of Bengal reserves to himself the right of disposing of the Opium which the French Authorities may so fail to pay for either by increasing the quantity reserved at the Sale next ensuing the date of payment, or by selling it at a Sale to be held expressly for the purpose.

Article 6th. "With regard to the Trade in Opium it is agreed between the High Contracting Parties that at each of the periodical Sales of that Article there shall be reserved for the French Government, and delivered upon requisition duly made by the Agents of His Most Christian Majesty, or by the persons duly appointed by them the number of Chests so applied for, provided that such supply shall not exceed three hundred Chests in each year, and the price for the same shall be determined by the average rate at which Opium shall have been sold at every such periodical Sale, it being understood that if the quantity of Opium applied for at any one time shall not be taken on account of the French Government by the Agents of His Most Christian Majesty within the usual period of delivery, the quantity so applied for, shall nevertheless be considered as so much in reduction of the three hundred Chests herein before mentioned—the requisitions for Opium as aforesaid are to be addressed to the Governor General at Calcutta within thirty days after notice of the intended Sales shall have been published in the Government Gazette."

By Order of the Board of Customs, Salt and Opium,
H. TORRENS, Secretary.

NOTICE.

CHANGE OF PILOT STATION FOR THE RIVER
HOOGHLY.

NOTICE is hereby given, that referring to the impracticability during the last S. W. Monsoon, owing to the encreasing resort of Shipping to the Port of Calcutta, to supply Pilots at the distant Station off Point Palmyras, the arrangements as noted in the following Memorandum from the Master Attendant, will be adopted for the next S. W. Monsoon.

MEMO.

1st.—A Pilot Vessel will be stationed off False Point during the next South West Monsoon, say from the 15th of March to the 15th of September 1842, bearing, according to circumstances, E. by N. a S. E. by S. from the Light House, and in from 10 to 15 fathoms depth of water.

2d.—This Vessel will exhibit by day when any others are in sight, besides the usual Company's Ensign at her Peak, a large Danish Jack (red with white cross) at her Main Top Gallant Mast Head, and at night a good Light in the same situation, besides burning a Blue Light every hour, and beating a Gong frequently in calm thick weather, to warn Vessels coming from the Southward of her near neighbourhood. She will not however have any Pilots on board, the main object of her intended Station off False Point being to guard all inward bound Vessels from proceeding to the old Station off Point Palmyras during next season, and directing them to a new one in the South Channel between the Tails of the Eastern and Western Reefs, where Pilot Vessels will then be found in from 16 to 20 fathoms water, and from 6 to 8 Miles South West of the present South Channel Buoy, that Buoy laying in Lat. 20° 58' 30" N. Long. 88° 4' East of Greenwich, and in 12 fathoms water.

3d.—For the purpose of more distinctly marking the new Station, the Commanding Officer's Vessel there will always wear by day, when other Vessels are in sight, a large St. George's Jack (white with red cross) at her Main Top Gallant Mast Head, besides the usual Company's Colours at her Peak, and at night be distinguished by a constant good Mast Head Light, by Blue Lights and Maroons used alternately every half hour and also by Guns fired every four hours, say at 8 P. M., Midnight, and 4 A. M. with good Rockets discharged at the same time.

4th.—All Vessels are recommended to be most careful in coming over from False Point to the New Station by constant attention to that safe old Guide the Lead, and thereby correcting their Steerage as Tides or Currents may or may not set them out of their proper course, and they are also advised not to come under 16 fathoms, at night especially, till they reach the Pilot's Station and get their proper Pilots on board.

5th.—Lastly—All Vessels are directed not to approach the Pilot's Station at night without giving due warning, and not only by the exhibition of Lights, say 2 Vertical where best seen, but also by the discharge of a Gun, if they have any on board, as soon as they descried the first Pilot Vessel near them. They are further recommended to be most careful not to come into collision with any of the Pilot Vessels at the Station on their own accounts no less than that of the Public as they will be held responsible for all Damages, and called upon afterwards to pay for all that may have arisen from bad Look-out, Inattention to Duty, or Carelessness of any kind whatever.

NOTIFICATION.

FORT WILLIAM,
SECRET DEPARTMENT,
THE 27TH NOVEMBER, 1841.

The Right Hon'ble the Governor General in Council is pleased to publish for general information, the annexed Copies of Despatches from Major General Sir Robert Sale, K. C. B., detailing the results of several affairs with the insurgent tribes of the Eastern Ghilzies, on the road from Cabool to Gundamuk, in which, under extreme disadvantages of position, the gallantry and zeal of the Troops under his Command have been severely tried and conspicuously displayed.

By Order of the Right Hon'ble the Governor General in Council,

T. H. MADDOCK,
Secretary to the Govt. of India.

FROM MAJOR GENERAL

SIR ROBERT SALE, K. C. B.,

TO CAPTAIN GRANT,

Offg. Assist. Adjutant General, Cabool.

Dated Camp Boot'huk, 12th October, 1841.

SIR,—I have the honor to state to you, for the information of Major General Elphinstone, C. B., that the task of forcing the Pass of Khoord Cabool, and defeating the Rebels posted within it, has, this morning, been accomplished.

After fully weighing the whole of the information brought to me at various periods in the course of yesterday, I came to the conclusion, that the main body of the Insurgents was posted behind a Breastwork, near the middle of the Pass, and that they would defend it, as well as the almost inaccessible heights, on either flank of it.

My plan of attack was therefore arranged as follows. I determined to employ two hundred Juyzailchees, under the well known Sirdar Jan Fishan Khan, to create a diversion by assaulting, in flank and rear, the precipitous ridge which forms the Southern side of the Durra, whilst the Troops under my command entered its gorge, and attacked the enemy in

front. The Force left Camp at 6 A. M. The advanced guard consisted of the two guns of Foot Artillery, under Lieutenant Dawes, two Companies of the 13th Light Infantry under Captain Fenwick and Lieutenant George King, the Flank Companies of the 35th Native Infantry under Captain Younghusband, and a Detachment of Pioneers under Captain Broadfoot, the whole being in charge of Captain Seaton, 35th Regiment Native Infantry. The remainder of the 13th and 35th, formed our main body. As we approached the Insurgents' position, we found that all the reports of our Spies had been substantively correct, but that the enemy were withdrawing from behind their Breastwork in the valley, and occupying the rocky ridges of the mountains on either side. They opened upon us a well-directed fire, and at the very commencement of the affair, I received a wound from a ball, above the ankle, which ultimately compelled me to leave the field. Whilst I remained on it, however, I directed two Companies of the 13th, and one of the 35th, to ascend the precipices on either hand in face of the enemy, and I must in justice to them mention the gallantry, activity, and perseverance with which this duty was performed, and the enemy driven by our Skirmishers from point to point of eminences almost perpendicular. When compelled to retire, I resigned the command into the hands of Lieutenant Colonel Dennie, C. B., and have the pleasure to forward his report, detailing the further progress and completion of the affair.

I beg to add, that whilst I remained at the head of the Force, the conduct of both Officers and men afforded me the highest satisfaction, and I am greatly pleased with the spirited and judicious manner in which Lieutenant Colonel Dennie brought the matter to a close.

The exertions of my Brigade Major, Captain Wade, and of Captain Havelock, and Lieut. Airey of Major General Elphinstone's personal Staff, who attached themselves to me as Volunteers on this service, demand my amplest acknowledgments. The last mentioned of these Officers had a horse shot under him. I beg to forward the Casualty Return of the 13th; that of the Artillery, Sappers, and 35th N. I. shall follow.

A memorandum of the Ammunition expended, is also annexed. I am thankful for the promised reinforcement of two Guns; and if the 37th Regiment N. I. can also be promptly sent out, it will relieve the Troops from a part of very harassing out-post duty; in an exposed plain, in the vicinity of mountains.

P. S. I ought not to have forgotten to mention, that Captain Billew, Assistant Quarter Master General, who had previously, under General Elphinstone's instructions, reconnoitred the Passes occupied by the

enemy, accompanied me during my march from Cabool, and ably aided me, until the moment of my being wounded, upon which he continued to render valuable assistance to Lieut.-Col. Dennie. To Brevet Captain Trevor, 3d Light Cavalry, politically employed on this occasion, I was indebted for the information obtained at Bootkhak; upon it my plan of attack was based, and it proved correct in every particular; and he was personally active and conspicuous throughout the engagement.

FROM LIEUT. COL. W. H. DENNIE, C. B.,

Commanding 13th Light Infantry,

TO MAJOR GENERAL SIR R. H. SALE, K. C. B.,

Commanding.

Dated Camp Bootkhak, 12th October, 1841.

SIR,—I beg, on my return to Camp, to report the details of the progress and completion of the affair with the Rebels, in the Khoord Cabool Pass, begun in so spirited a manner under your personal command this morning.

On receiving over charge of the Troops, in consequence of your wound compelling you to leave the Valley, I pursued your plan of operations by pressing the Enemy as much as the nature of the ground would admit on both Flanks, and rapidly moving on the Main Column and Guns, with the intention of dislodging them from their Breastworks, if still occupied, but this the Insurgents had evacuated, though they ventured to dispute the possession of the precipitous heights, and to direct a well-aimed fire against our Main Force. Disconcerted, however, by the bold manner in which they were met by our Skirmishers, as they scaled the Mountain sides, and by the steady progress of the advance, they gradually abandoned their first position, and retired to the highest ridges and pinnacles of the Durra.

I had resolved from the first not to allow any lateral opposition to divert me from the main purpose of clearing the Valley, and a little after 7 A. M. I had the satisfaction of reaching the southern gorge of the Pass, and establishing there the 35th Native Infantry and the Guns, in an excellent post, constituted by the walls of a strong and capacious, though deserted Fort. By this time our Skirmishers had every where got possession of the heights, and the Affghan Force under Jan Fishen Khan, had also crowned the mountains and displayed their banners on its summit.

You are aware, that it was part of your original plan, that the 13th Light Infantry should return to their Encampment at Bootkhak—as the column marched back, the Enemy again showed themselves on several points of the defile, and opened a fire, and some loss was sustained in repelling these attacks, and in withdrawing our Flanking parties.

The Troops finally arrived at Bootkhak about 2 P. M., a good deal harassed by the exertions of the morning. You will see by the Returns that the Casualties have not been few, which arose from the great advantage afforded by the ground to an Enemy trained to Mountain Warfare.

Permit me to add the expression of my admiration of the fearless manner in which the men of the 13th, chiefly young Soldiers, ascended heights nearly perpendicular, under the sharp fire of the Insurgents. The Sepoys of the 35th rivalled and equalled them in steadiness, activity and intrepidity. I am happy to say, that no loss whatever of Baggage of the Native Infantry was sustained in traversing this valley of plunderers.

I have not yet received the Casualty Return of the 35th Regiment Native Infantry, but have reason to believe that it is in amount about equal to that of the 13th, and am informed that they have one Officer, Captain Younghusband, severely wounded.

Camp in the Valley near Fozzeem, October 23d, 1841.

SIR,—I beg to acquaint you for the information of Major General Elphinstone, C. B., that the force united under my Command, consisting of the 1st Bri-

gade of Infantry, No. 6, Light Field Battery, the Mountain Train, the Corps of Sappers and Miners, a Squadron of the 5th Light Cavalry, and a Rissalah of the Shah's 2d Cavalry, marched from Khoord Cabool towards Teezeen yesterday morning. Lieutenant Colonel Monteath, 35th, Commanded the advance guard, Lieutenant Colonel Dennie, 13th, the main column, and Captain Oldfield, 5th Light Cavalry, the rear guard, in each of which troops of the several arms were appointed according to the best of my judgment. The force felt its way cautiously through the defiles of the Haft Kotul, occupying with Skirmishers the hills on either flank, and leaving parties for the protection of our baggage and rear on selected points. Nothing was seen of the enemy until the advance and main body had halted in the valley of Teezeen. From this low ground another vale stretches out towards the South East, and on the sides and summits of the mountains which enclose the latter, were posted in every quarter bodies of the insurgents, whilst another portion of their force, consisting of foot, led on by Sirdars on horseback and their mounted followers, shewed a determination to dispute with us the possession of a conical hill, which partially closes the entrance of the branching valley, and barred our approach to Mochumund Uzal's fort, a large work backed by gardens, which the rebels still garrisoned. From this eminence the advance guard under Colonel Monteath drove them by a combined attack, and I then directed the 13th Light Infantry and a portion of Captain Abbot's battery to advance under Lieutenant Colonel Dennie and assault the fort itself. The insurgents, however, abandoned it after directing from it a feeble fire.

I immediately determined to establish in it a *Dépôt* for my sick and wounded, and to take it as a point of support for ulterior operations and an appui to my Camp, to be fixed under its walls, but as the enemy continued to occupy in force a nearly circular range of heights, and even boldly to skirmish in a lower part of the valley, it became necessary to drive them from such segments of the mountain as would, if remaining in their hands, have given them the power to command our position, and fire upon the troops with advantage at night. This led to a succession of skirmishes which were maintained with great coolness and spirit by several Companies of the 13th and one of the 35th, aided by the Guns of Captain Abbott's Battery and the Mountain Train, and supported by the Cavalry. The combat was prolonged until after dusk, and the ammunition of one of the Companies of the 13th having been expended, it was compelled temporarily to retire, and a very promising Officer, Lieutenant Edward King, was killed at its head. A supply of cartridges and a reinforcement were promptly sent up, and the affair ended by the rebels being pushed off every part of the steep mountains which we designed to retain. The Returns will shew that our loss has been slight, and I have no doubt that the enemy suffered severely from the fire of our Skirmishers and the shot of our batteries. The force bivouacked in position without an attempt being made upon our line. Morning shewed us the heights every where deserted by the rebels, and if a negotiation which they have opened in very humble terms, should not end in their entire submission, I purpose to attack their principal fort to-morrow.

I regret to have to add that, though every precaution was adopted for the security of our line of communication, a large interval was created between our main body and rear guard by the circumstance of the latter having to await at Khoord Cabool the arrival of carriage from the capital for part of the public baggage. A light armed enemy, well acquainted with the country, did not fail to take advantage of this, and I fear that some ammunition and valuable stores have fallen into their hands. I beg to forward the report of Captain Oldfield, detailing every occurrence whilst he commanded the rear guard, also the Returns of killed and wounded and of ammunition expended.

FROM MAJOR-GENERAL SIR R. H. SALE, K. C. B.,

*Commanding the 1st Brigade of British Troops
serving in Afghanistan,*

TO CAPTAIN GRANT,

Officiating Assistant Adjutant General, Cabool,

Dated Camp Jugdulluk, October 28, 1841.

SIR,—I have the honor to acquaint you, for the information of Major General Elphinstone, C. B., that the Force under my Command, reached this place to-day: last night passed over without the slightest insult to our out-posts at Kuttah Sang, but during the morning's march we descried small parties at a distance on both flanks, especially near the outlet of the Purree Durree, which afterwards united in a combined attack on our rear guard. Our loss has been small, and the enemy was every where baffled and held in check by the fire from our Guns and Skirmishers. Owing, however, to the jaded state of our camels, it became necessary to destroy a good deal of Camp Equipage to prevent its falling into the Rebels' hands.

The daily repetition of these attacks has given rise to suspicions of the sincerity of the Chiefs in the mind of the Political Assistant, in which I am compelled to participate, though I shall be happy to find that their submission at Teezeen was made in good faith, and that these petty hostilities are the acts of men not under their control.

FROM MAJOR-GENERAL

SIR R. SALE, K. C. B.,

*Commanding the 1st Brigade of British Troops
serving in Afghanistan,*

TO CAPTAIN GRANT,

Offy. Assistant Adjutant General,

CABOOL.

Dated Camp Gundamuk, 30th October, 1841.

SIR,—Yesterday the Force under my command was again engaged with the Insurgents of these Mountains, and the affair was the sharpest which we have had since penetrating the Pass of Khoord Cabool. I experienced little molestation in my Camp at Jugdulluk, but observed towards sunset and by moonlight evident indications of the enemy which had attacked our rear guard earlier in the day, being in the act of moving off over the Hills with a view of concentrating between my force and Sookhab. Major General Elphinstone is acquainted with the localities and will not have forgotten that the only entrance to the valley of Jugdulluk from the Eastward is by a long and winding Kotul overlooked and commanded by a lofty range of mountains, partially clothed with bushes and dwarf trees. Of these really terrific eminences, the rebels had, as I had anticipated, taken possession, in more considerable numbers than we have been opposed to since leaving Teezeen. Holding all the salient points of the hills, and secured by breastworks, they shewed a determination to dispute with the utmost obstinacy the progress of our flanking parties and to endeavour to prevent the debouche of our advance and main column. To enable us to effect this, I had to detach Companies from every Corps in the force to the right and left, which aided by the Artillery won their way inch by inch up the lofty heights, much however remained to be done, and the fire of the mountaineers from several of the tallest summits was unabated, and success was every where doubtful; when a single Company of the 13th, under Captain Wilkinson, was directed to advance

up the defile itself. It pressed forward at a rapid pace, supported by all the reserves which remained available, and to the surprise of the whole force found that the enemy had neglected to guard the main outlet. This van guard therefore it supports, and the guns were quickly established on the narrow table land from which they had it in their power to take the whole of the defences of the Rebels in reverse. Our troops commanded the route to Sookhab, and the enemy seemed to decline all further opposition. The march was resumed, but as the cumbersome train of baggage filed over the mountain, the insurgents again appearing from beyond the most distant ridges, renewed the contest with increased numbers, and the most savage fury. Our rear-guard made the best dispositions for defence, and rescue; but the suddenness of the onset caused some confusion, during which, notwithstanding the efforts of the troops, some Baggage and Camp Equipage fell into the hands of their opponents. Captain Wyndham, of the 35th, was killed at this crisis of the affair; and several brave men of all the Corps, fell or were wounded. Soon, however, by the praiseworthy exertions, and cool and soldierlike order and example of Captains Backhouse and Broadfoot of the Shah's Service, and Fenwick, of the 13th, confidence was restored, the aspect of the affair changed, and the rear guard extricated from the defile. It continued in the best order to retreat, and to repel the enemy who had followed it up to the point at which the loftier hills wear away. Our casualties of yesterday and the day before, amount to one hundred and thirty; amongst whom are one Officer killed and four wounded. This loss will not be considered heavy by those who have seen the heights from which the rebels were driven, and are acquainted with the habits and character of the mountaineers to whom we were opposed. I have to-day marched to this place without any interruption worthy of mention.

From the details of this despatch the Major General Commanding in Afghanistan, will be enabled to draw his own inferences as to the actual state of our relations with the refractory Chiefs who were admitted at Teezeen into a treaty of reconciliation with the Government against which they had rebelled. But it belongs more peculiarly to my vocation, in the field, now that there is a prospect of brief repose in the vicinity of this Cantonment, to report with much satisfaction the cheerfulness, steadiness and perseverance with which the troops have performed every duty required of them; since leaving Cabool they have been kept constantly on the alert by attacks by night and day; from the time of their arrival at Teezeen they have invariably bivouacked, and the safety of our positions has only been secured by unremitting labor, and throwing up intrenchments, and very severe out-post duty; whilst each succeeding morning has brought its affair, with a bold and active enemy, eminently skilful in the species of warfare to which their attempts have been confined, and armed with Jozails, which have enabled them to annoy us, at a range, at which they could only be reached by our Artillery. Though compelled by the effects of my late wound to witness these conflicts from a Doolie, I must bear my unequivocal testimony to the gallantry of Officers and men, on every occasion of contact with the enemy, and especially in scaling the tremendous heights above Jugdulluk. I enclose Casualty Return.

I beg to express my sense of the highly able assistance which I have received in all our attacks and skirmishes, and throughout the operations, from Lieutenant Colonels Dennie and Monteith, C. B. I have been much pleased with the address and able managements of Captain Abbott of the Artillery, who has twice commanded the advance guard; and the exertions of Captain Wade, my Brigade Major, and of Captain Havelock, Persian Interpreter to General Elphinstone, (temporarily attached to me) in conveying my orders from point to point, and aiding in the dispositions,—deserve my warmest commendations.

NOTICE.

CHANGE OF PILOT STATION FOR THE RIVER
HOOGHLY.

NOTICE is hereby given, that referring to the
impracticability during the last S. W. Mon-
soon, owing to the encreasing resort of Shipping to
the Port of Calcutta, to supply Pilots at the distant
Station off Point Palmyras, the arrangements as noted
in the following Memorandum from the Master At-
tendant, will be adopted for the next S. W. Monsoon.

MEMO.

1st.—A Pilot Vessel will be stationed off False
Point during the next South West Monsoon, say from
the 15th of March to the 15th of September 1842,
bearing, according to circumstances, E. by N. & S. E.
by S. from the Light House, and in from 10 to 15
fathoms depth of water.

2d.—This Vessel will exhibit by day when any
others are in sight, besides the usual Company's
Ensign at her Peak, a *large Danish Jack* (red with
white cross) at her Main Top Gallant Mast Head, and
at night a *GOOD Light* in the same situation, besides
burning a *Blue Light* every hour, and beating a *Gong*
frequently in calm thick weather, to warn Vessels
coming from the Southward of her near neighbour-
hood. She will *not* however have any Pilots on
board, the main object of her intended Station off
False Point being to guard all inward bound Vessels
from proceeding to the old Station off Point Palmyras
during next season, and directing them to a new one
in the South Channel between the Tails of the
Eastern and Western Reefs, where Pilot Vessels will
then be found in from 16 to 20 fathoms water, and
from 6 to 8 Miles South West of the present South
Channel Buoy, that Buoy lying in Lat. 20° 58' 30"
N. Long. 88° 4' East of Greenwich, and in 12 fathoms
water.

3d.—For the purpose of more distinctly marking the
new Station, the Commanding Officer's Vessel there
will always wear by day, when other Vessels are in
sight, a *large St. George's Jack* (white with red cross)
at her Main Top Gallant Mast Head, besides the
usual Company's Colours at her Peak, and at night
be distinguished by a constant *good Mast Head Light*,
by *Blue Lights* and *Maroons* used alternately every
half hour and also by *Guns* fired every four hours,
say at 8 P. M., Midnight, and 4 A. M. with *good*
Rockets discharged at the same time.

4th.—All Vessels are recommended to be most care-
ful in coming over from False Point to the New Sta-
tion by constant attention to that safe old Guide the
Lead, and thereby correcting their Steerage as Tides
or Currents may or may not set them out of their
proper course, and they are also advised not to come
under 16 fathoms, at night especially, till they reach
the Pilot's Station and get their proper Pilots on
board.

5th.—Lastly—All Vessels are directed not to ap-
proach the Pilot's Station at night without giving due
warning, and not only by the exhibition of Lights, say
2 *Vertical* where best seen, but also by the discharge
of a Gun, if they have any on board, as soon as they
descrie the first Pilot Vessel near them. They are fur-
ther recommended to be most careful not to come into
collision with any of the Pilot Vessels at the Station
on their own accounts no less than that of the Public
as they will be held responsible for all Damages, and
called upon afterwards to pay for all that may have
arisen from bad Look-out, Inattention to Duty, or
Carelessness of any kind whatever.

4th.—The Parties will be required to place in the hands of the Board of Customs, Salt and Opium, Bills of Lading of the Consignment and Policies of Insurance effected thereon, both in triplicate. The Bills of Lading must be drawn

deliverable to the East India Company, or endorsed to the order of the East India Company. The Policies of Insurance must be effected in the name and on behalf of the East India Company, as the Parties interested, or endorsed to their order; but persons desirous of effecting the necessary Insurance in this Country, and of depositing the Policies in the Company's Treasury, will be allowed to do so.

5th.—In case of default being made either in acceptance, or payment of the Bills, the Court of Directors to be authorized, in such manner and at such times as they may see fit to sell the Goods, for the purpose of re-paying the Company the amount of the Advances made thereon, including Freight and any other charges or expenses which the Company may have incurred on account of the Consignment, together with Interest, should any have accrued; the Company, on the other hand, allowing discount, where any part of the proceeds shall be realized before the Bills fall due, and the settlement of either surplus or deficiency shall be made with the Consignor; and if in India or China by the Government or Agents from whom he received the Advance, at the rate of exchange at which the Company may at the time be drawing Bills upon such Government or Agents.

6th.—An Agent in England shall be appointed for each Consignment, to whom the Court of Directors shall be empowered to make over the Goods, subject to all the conditions agreed upon with the Company, on payment of the Bills; and with whom they shall be authorized to transact generally all business relating to such Goods. The Consignor shall be at liberty to make provision, in case of the Party upon whom the Bill is drawn, (being also the Agent) having failed to accept the Bill, for the substitution of another Agent.

7th.—After the arrival of the Goods in England and when they shall have been placed in such deposit as may have been agreed upon, the Agent may be put into possession of them before the Bills become due, upon the amount of such Bills (less discount) being paid, together with the Freight and any other charges and expenses which the Company have paid or may be subject to on account of the Goods.

8th.—The rate of Discount to be allowed by the Company shall be the same as that charged by the Bank of England; and in cases where interest shall have accrued, such interest shall be computed at the rate or rates per cent. at which the Company have allowed Discount during the period for which such interest is chargeable.

10th.—Parties receiving Advances, to address in each instance a Letter in quadruplicate to the Court of Directors, according to a form which will be furnished by the Officers of Government (or authorized Agents of the East India Company), signifying their assent to all the foregoing conditions, but more particularly for the purpose of expressly authorizing the sale of the Goods by the Company (without either notice to or concurrence of any person whomsoever) at any period after default shall be made either in acceptance or payments of the Bills; also authorizing, in such cases, the re-paying to the Company the Advances made, either principal or interest, together with any other charges or expences which the Company may have incurred in respect of the Goods, and appointing the Agent in England for each transaction.

the cakes, and to have the due proportion of Opium put into each cake. An account of the weight of the Drug when packed at Behar and Benares, and a Statement of the average weight of Six Chests from each dispatch at Calcutta, may be seen on application at the Office of the Secretary to the Board of Customs, Salt and Opium.

18. It is hereby further notified that under the 6th Article of the Convention between Great Britain and France dated the 7th March 1815 quoted below, the Agents in India of His Majesty the King of the French, or Persons duly appointed by them, are entitled to demand that out of the quantities of Behar and Benares Opium declared as above for Sale at the five Sales in the months of January, February, April, May and June, there shall be delivered to them at the average of the particular Sale or Sales to which the Opium so applied for may belong, a quantity not exceeding in the aggregate 300 Chests, and the Agents of the French Government must make requisition for the whole of the Opium required by them during the year within 30 days after the publication of this Advertisement specifying the particular Sale or Sales from which the quantity of Opium is intended to be taken. If the Agents of the French Government shall not make the requisition for Opium within the time above mentioned, the entire quantity of about 18,360 Chests of Behar and Benares Opium as above estimated will be brought to Sale in the usual manner, and if they shall make application for a quantity of Opium to be delivered to them out of the quantity advertised for Sale at each or any of the five Sales above mentioned, but shall not pay for it within the prescribed period of payment, the Governor of Bengal reserves to himself the right of disposing of the Opium which the French Authorities may so fail to pay for either by increasing the quantity reserved at the Sale next ensuing the date of payment, or by selling it at a Sale to be held expressly for the purpose.

ARTICLE 6th. "With regard to the Trade in Opium it is agreed between the High Contracting Parties that at each of the periodical Sales of that Article there shall be reserved for the French Government, and delivered upon requisition duly made by the Agents of His Most Christian Majesty, or by the persons duly appointed by them the number of Chests so applied for, provided that such supply shall not exceed three hundred Chests in each year, and the price for the same shall be determined by the average rate at which Opium shall have been sold at every such periodical Sale, it being understood that if the quantity of Opium applied for at any one time shall not be taken on account of the French Government by the Agents of His Most Christian Majesty within the usual period of delivery, the quantity so applied for, shall nevertheless be considered as so much in reduction of the three hundred Chests herein before mentioned—the requisitions for Opium as aforesaid are to be addressed to the Governor General at Calcutta within thirty days after notice of the intended Sales shall have been published in the Government Gazette."

By Order of the Board of Customs, Salt and Opium,
H. TORRENS, Secretary.

A REWARD of 200 Rupees will be given to any person procuring the apprehension of Issur-chunder Banerjee, an inhabitant of Jorasanko, in Calcutta, and late Darogah of Ghaut Monohurgunge, in the Salt Agency of 24-Pargunnahs.

NOTICE.

CHANGE OF PILOT STATION FOR THE RIVER HOOGHLY.

NOTICE is hereby given, that referring to the impracticability during the last S. W. Monsoon, owing to the encreasing resort of Shipping to the Port of Calcutta, to supply Pilots at the distant Station off Point Palmyras, the arrangements as noted in the following Memorandum from the Master Attendant, will be adopted for the next S. W. Monsoon.

MEMO.

1st.—A Pilot Vessel will be stationed off False Point during the next South West Monsoon, say from the 15th of March to the 15th of September 1842, bearing, according to circumstances, E. by N. a S. E. by S. from the Light House, and in from 10 to 15 fathoms depth of water.

2d.—This Vessel will exhibit by day when any others are in sight, besides the usual Company's Ensign at her Peak, a large *Danish Jack* (red with white cross) at her Main Top Gallant Mast Head, and at night a good Light in the same situation, besides burning a Blue Light every hour, and beating a Gong frequently in calm thick weather, to warn Vessels coming from the Southward of her near neighbourhood. She will not however have any Pilots on board, the main object of her intended Station off False Point being to guard all inward bound Vessels from proceeding to the old Station off Point Palmyras during next season, and directing them to a new one in the South Channel between the Tails of the Eastern and Western Reefs, where Pilot Vessels will then be found in from 16 to 20 fathoms water, and from 6 to 8 Miles South West of the present South Channel Buoy, that Buoy lying in Lat. 20° 58' 30" N. Long. 88° 4' East of Greenwich, and in 12 fathoms water.

3d.—For the purpose of more distinctly marking the new Station, the Commanding Officer's Vessel there will always wear by day, when other Vessels are in sight, a large *St. George's Jack* (white with red cross) at her Main Top Gallant Mast Head, besides the usual Company's Colours at her Peak, and at night be distinguished by a constant good Mast Head Light, by Blue Lights and Maroons used alternately every half hour and also by Guns fired every four hours, say at 8 P. M., Midnight, and 4 A. M. with good Rockets discharged at the same time.

4th.—All Vessels are recommended to be most careful in coming over from False Point to the New Station by constant attention to that safe old Guide the Lead, and thereby correcting their Steerage as Tides or Currents may or may not set them out of their proper course, and they are also advised not to come under 16 fathoms, at night especially, till they reach the Pilot's Station and get their proper Pilots on board.

5th.—Lastly—All Vessels are directed not to approach the Pilot's Station at night without giving due warning, and not only by the exhibition of Lights, say 2 Vertical where best seen, but also by the discharge of a Gun, if they have any on board, as soon as they descry the first Pilot Vessel near them. They are further recommended to be most careful not to come into collision with any of the Pilot Vessels at the Station on their own accounts no less than that of the Public as they will be held responsible for all Damages, and called upon afterwards to pay for all that may have arisen from bad Look-out, Inattention to Duty, or Carelessness of any kind whatever.

4th.—The Parties will be required to place in the hands of the Board of Customs, Salt and Opium, Bills of Lading of the Consignment and Policies of Insurance effected thereon, both in duplicate. The Bills of Lading must be drawn

deliverable to the East India Company, or endorsed to the order of the East India Company. The Policies of Insurance must be effected in the name and on behalf of the East India Company, as the Parties interested, or endorsed to their order; but persons desirous of effecting the necessary Insurance in this Country, and of depositing the Policies in the Company's Treasury, will be allowed to do so.

5th.—In case of default being made either in acceptance, or payment of the Bills, the Court of Directors to be authorized, in such manner and at such times as they may see fit to sell the Goods, for the purpose of repaying the Company the amount of the Advances made thereon, including Freight and any other charges or expenses which the Company may have incurred on account of the Consignment, together with interest, should any have accrued; the Company, on the other hand, allowing discount, where any part of the proceeds shall be realized before the Bills fall due, and the settlement of either surplus or deficiency shall be made with the Consignor; and if in India or China by the Government or Agents from whom he received the Advance, at the rate of exchange at which the Company may at the time be drawing Bills upon such Government or Agents.

6th.—An Agent in England shall be appointed for each Consignment, to whom the Court of Directors shall be empowered to make over the Goods, subject to all the conditions agreed upon with the Company, on payment of the Bills; and with whom they shall be authorized to transact generally all business relating to such Goods. The Consignor shall be at liberty to make provision, in case of the Party upon whom the Bill is drawn, (being also the Agent) having failed to accept the Bill, for the substitution of another Agent.

7th.—After the arrival of the Goods in England and when they shall have been placed in such deposit as may have been agreed upon, the Agent may be put into possession of them before the Bills become due, upon the amount of such Bills (less discount) being paid, together with the Freight and any other charges and expenses which the Company have paid or may be subject to on account of the Goods.

10th.—Parties receiving Advances, to address in each instance a Letter in quadruplicate to the Court of Directors, according to a form which will be furnished by the Officers of Government (or authorized Agents of the East India Company), signifying their assent to all the foregoing conditions, but more particularly for the purpose of expressly authorizing the sale of the Goods by the Company (without either notice to or concurrence of any person whomsoever) at any period after default shall be made either in acceptance or payments of the Bills; also authorizing, in such cases, the re-paying to the Company the Advances made, either principal or interest, together with any other charges or expenses which the Company may have incurred in respect of the Goods, and appointing the Agent in England for each transaction.

NOTICE.

CHANGE OF PILOT STATION FOR THE RIVER
HOOGHLY.

NOTICE is hereby given, that referring to the impracticability during the last S. W. Monsoon, owing to the encreasing resort of Shipping to the Port of Calcutta, to supply Pilots at the distant Station off Point Palmyras, the arrangements as noted in the following Memorandum from the Master Attendant, will be adopted for the next S. W. Monsoon.

MEMO.

1st.—A Pilot Vessel will be stationed off False Point during the next South West Monsoon, say from the 15th of March to the 15th of September 1842, beging, according to circumstances, E. by N. a S. E. by S. from the Light House, and in from 10 to 15 fathoms depth of water.

2d.—This Vessel will exhibit by day when any others are in sight, besides the usual Company's Ensign at her Peak, a large Danish Jack (red with white cross) at her Main Top Gallant Mast Head, and at night a good Light in the same situation, besides burning a Blue Light every hour, and beating a Gong frequently in calm thick weather, to warn Vessels coming from the Southward of her near neighbourhood. She will not however have any Pilots on board, the main object of her intended Station off False Point being to guard all inward bound Vessels from proceeding to the old Station off Point Palmyras during next season, and directing them to a new one in the South Channel between the Tails of the Eastern and Western Reefs, where Pilot Vessels will then be found in from 16 to 20 fathoms water, and from 6 to 8 Miles South West of the present South Channel Buoy, that Buoy laying in Lat. 20° 58' 30" N. Long. 88° 4' East of Greenwich, and in 12 fathoms water.

3d.—For the purpose of more distinctly marking the new Station, the Commanding Officer's Vessel there will always wear by day, when other Vessels are in sight, a large St. George's Jack (white with red cross) at her Main Top Gallant Mast Head, besides the usual Company's Colours at her Peak, and at night be distinguished by a constant good Mast Head Light, by Blue Lights and Maroons used alternately every half-hour and also by Guns fired every four hours, say at 8 P. M., Midnight, and 4 A. M. with good Rockets discharged at the same time.

4th.—All Vessels are recommended to be most careful in coming over from False Point to the New Station by constant attention to that safe old Guide the Lead, and thereby correcting their Steerage as Tides or Currents may or may not set them out of their proper course, and they are also advised not to come under 16 fathoms, at night especially, till they reach the Pilot's Station and get their proper Pilots on board.

5th.—Lastly—All Vessels are directed not to approach the Pilot's Station at night without giving due warning, and not only by the exhibition of Lights, say 2 Vertical where best seen, but also by the discharge of a Gun, if they have any on board, as soon as they decry the first Pilot Vessel near them. They are further recommended to be most careful not to come into collision with any of the Pilot Vessels at the Station on their own accounts no less than that of the Public as they will be held responsible for all Damages, and called upon afterwards to pay for all that may have arisen from bad Look-out, Inattention to Duty, or Carelessness of any kind whatever.

NOTICE.

CHANGE OF PILOT STATION FOR THE RIVER HOOGLY.

NOTICE is hereby given, that referring to the impracticability during the last S. W. Monsoon, owing to the increasing resort of Shipping to the Port of Calcutta, to supply Pilots at the distant Station off Point Palmyras, the arrangements as noted in the following Memorandum from the Master Attendant, will be adopted for the next S. W. Monsoon.

MEMO.

1st.—A Pilot Vessel will be stationed off False Point during the next South West Monsoon, say from the 15th of March to the 15th of September 1842, bearing, according to circumstances, E. by N. a S. E. by S. from the Light House, and in from 10 to 15 fathoms depth of water.

2d.—This Vessel will exhibit by day when any others are in sight, besides the usual Company's Ensign at her Peak, a large Danish Jack (red with white cross) at her Main Top Gallant Mast Head, and at night a good Light in the same situation, besides burning a Blue Light every hour, and beating a Gong frequently in calm thick weather, to warn Vessels coming from the Southward of her near neighbourhood. She will not however have any Pilots on board, the main object of her intended Station off False Point being to guard all inward bound Vessels from proceeding to the old Station off Point Palmyras during next season, and directing them to a new one in the South Channel between the Tails of the Eastern and Western Reefs, where Pilot Vessels will then be found in from 16 to 20 fathoms water, and from 6 to 8 Miles South West of the present South Channel Buoy, that Buoy laying in Lat. 20° 58' 30" N. Long. 88° 4' East of Greenwich, and in 12 fathoms water.

3d.—For the purpose of more distinctly marking the new Station, the Commanding Officer's Vessel there will always wear by day, when other Vessels are in sight, a large St. George's Jack (white with red cross) at her Main Top Gallant Mast Head, besides the usual Company's Colours at her Peak, and at night be distinguished by a constant good Mast Head Light, by Blue Lights and Maroons used alternately every half hour and also by Guns fired every four hours, say at 8 P. M., Midnight, and 4 A. M. with good Rockets discharged at the same time.

4th.—All Vessels are recommended to be most careful in coming over from False Point to the New Station by constant attention to that safe old Guide the Lead, and thereby correcting their Steerage as Tides or Currents may or may not set them out of their proper course, and they are also advised not to come under 16 fathoms, at night especially, till they reach the Pilot's Station and get their proper Pilots on board.

5th.—Lastly—All Vessels are directed not to approach the Pilot's Station at night without giving due warning, and not only by the exhibition of Lights, say 2 Vertical where best seen, but also by the discharge of a Gun, if they have any on board, as soon as they descrie the first Pilot Vessel near them. They are further recommended to be most careful not to come into collision with any of the Pilot Vessels at the Station on their own accounts no less than that of the Public as they will be held responsible for all Damages, and called upon afterwards to pay for all that may have arisen from bad Look-out, Inattention to Duty, or Carelessness of any kind whatever.

NOTICE.

CHANGE OF PILOT STATION FOR THE RIVER
HOOGHLY.

NOTICE is hereby given, that referring to the impracticability during the last S. W. Monsoon, owing to the encreasing resort of Shipping to the Port of Calcutta, to supply Pilots at the distant Station off Point Palmyras, the arrangements as noted in the following Memorandum from the Master Attendant, will be adopted for the next S. W. Monsoon.

MEMO.

1st.—A Pilot Vessel will be stationed off False Point during the next South West Monsoon, say from the 15th of March to the 15th of September 1842, bearing, according to circumstances, E. by N. a S. E. by S. from the Light House, and in from 10 to 15 fathoms depth of water.

2d.—This Vessel will exhibit by day when any others are in sight, besides the usual Company's Ensign at her Peak, a *large Danish Jack* (red with white cross) at her Main Top Gallant Mast Head, and at night a good Light in the same situation, besides burning a Blue Light every hour, and beating a Gong frequently in calm thick weather, to warn Vessels coming from the Southward of her near neighbourhood. She will not however have any Pilots on board, the main object of her intended Station off False Point being to guard all inward bound Vessels from proceeding to the old Station off Point Palmyras during next season, and directing them to a new one in the South Channel between the Tails of the Eastern and Western Reefs, where Pilot Vessels will then be found in from 16 to 20 fathoms water, and from 6 to 8 Miles South West of the present South Channel Buoy, that Buoy laying in Lat. $20^{\circ} 58' 30''$ N. Long. $88^{\circ} 4'$ East of Greenwich, and in 12 fathoms water.

3d.—For the purpose of more distinctly marking the new Station, the Commanding Officer's Vessel there will always wear by day, when other Vessels are in sight, a large *St. George's Jack* (white with red cross) at her Main Top Gallant Mast Head, besides the usual Company's Colours at her Peak, and at night be distinguished by a constant good Mast Head Light, by Blue Lights and Maroons used alternately every half hour and also by Guns fired every four hours, say at 8 P. M., Midnight, and 4 A. M. with good Rockets discharged at the same time.

4th.—All Vessels are recommended to be most careful in coming over from False Point to the New Station by constant attention to that safe old Guide the Lead, and thereby correcting their Steerage as Tides or Currents may or may not set them out of their proper course, and they are also advised not to come under 16 fathoms, at night especially, till they reach the Pilot's Station and get their proper Pilots on board.

5th.—Lastly—All Vessels are directed not to approach the Pilot's Station at night without giving due warning, and not only by the exhibition of Lights, say 2 Vertical where best seen, but also by the discharge of a Gun, if they have any on board, as soon as they descrie the first Pilot Vessel near them. They are further recommended to be most careful not to come into collision with any of the Pilot Vessels at the Station on their own accounts no less than that of the Public as they will be held responsible for all Damages, and called upon afterwards to pay for all that may have arisen from bad Look-out, Inattention to Duty, or Carelessness of any kind whatever.

(Signed) T. T. HARRINGTON,
Master Attendant.

By order of the Marine Board,
C. B. GREENLAW, Secretary.
Fort William, the 14th October, 1841.

No. 4745.

NOTICE.

REFERRING to the Notification indicating the proposed change of the Pilot Station during the approaching S. W. Monsoon, the Marine Board hereby give Notice, that with the sanction of Government, a Chart of Captain Lloyd's late Survey of the Ground between Lacam's Channel and False Point is being lithographed for public Sale, and the following is copy of Instructions proposed by Captain Lloyd with a view to the more ready Guide of Vessels from False Point to the New Station.

"It has been proposed by the Master Attendant, and approved of by the Marine Board, to change the Cruizing Ground of the Pilot Vessels during the S. W. Monsoon, or between the 15th of March and 15th of September from their present Station off Point Palmyras, to a position 6 or 8 miles S. W. from the South Channel Buoy in from 16 to 20 fathoms, and the following directions are offered as a guide to direct Vessels from False Point Light House to the New Cruizing Station."

"False Point Light House is in Latitude $20^{\circ} 19\frac{1}{2}'$ N. and Longitude $86^{\circ} 47'$ E., and that of the South Channel Buoy in Latitude $20^{\circ} 59'$ N. and Longitude $88^{\circ} 4'$ E., and bears from the former N. 61 E. true or N. E. by E. $\frac{1}{4}$ E. by Compass, distant 83 miles, and is laid in 12 fathoms."

"By an inspection of the Chart it will be seen that the Bank of Soundings off Point Palmyras extend in a direction towards the tail of the Western Sea Reef, and the nature of the bottom (as distinguished from that of the Hoogley deposit which is Sand and Mud with shining specks) is a gravelly substance composed of Sand Shells and small Pebbles discharged from the "Kunka" and other Rivers near Point Palmyras, the lighter materials of which being carried further out, is deposited and forms what is called the Pilot's Ridge, which in crossing to the N. W. shows a little less water than on either side, and in coming from Seaward upon this Shoal rather suddenly from 28 to 23 fathoms upon its Eastern edge. It is composed of a shelly Sand or Minute Gravel, of a reddish or rusty brown colour."

"The best Guide therefore to enable a Vessel to direct her course from False Point to the Vessels at the New Station will be to run down the edge of the Pilot's Ridge, and having made the Light House and brought it to bear about W. S. W. or S. W. by W. and distant by computation from 10 to 15 miles, should steer to the E. N. E., and having gradually increased her depth of water to 23 fathoms upon the Eastern edge of the Ridge, she should regulate her course to keep between it and 27 fathoms, when, by attention to the lead and nature of the Soundings, course and distance run from the Light House, it is almost impossible to miss the Pilot Vessels (if the above limits are kept within) either by getting too far to Windward or falling to Leeward, for the Soundings increase so rapidly to Seaward from the proposed New Station, that 28 fathoms will not be more than 3 or 4 miles to the Southward of it, and 23 fathoms the same distance to the Westward of it."

"The Soundings to Seaward of the Ridge are in general a greenish or olive coloured mud, with occasionally a few bits of broken Shells mixed with it."

Offg. M. S. Genl.

The price of the Chart will be Rupees 2 each, and parties desirous of being supplied are requested to send their names for registry at this Office.
